## PRODUCT DATA SHEET

## EKO HYDROLUB HLP

Hydraulic systems oils

## DESCRIPTION

EKO HYDROLUB HLP range includes hydraulic system oils with additives against oxidation, corrosion and wear

The EKO HYDROLUB HLP range oils are designed for low and high pressure hydraulic systems, operating in industrial applications and in mobile equipment applications.

## SPECIFICATIONS

DIN 51524 part 2 HLP, ISO 11158 HM, ASTM D6158 HM, Bosch Rexroth RDE-90235, Chinese standard GB 11118.1L-HL \& L-HM High Pressure and General, Danieli 0.000.001 Type 10 \& 11, Eaton Brochure 03-401-2010, Eaton Lubricant Specification E-FDGN-TB002-E, Fives Cincinnati P-68, P-69, P-70, GM LS-2 Antiwear Hydraulic Oil, JCMAS HK P041, Parker Denison HF-1, HF-2, HF-0, SAE MS1004, Swedish Standard SS 155434: 2015, US Steel 126, ZF TE-ML 07H, ZF TE-ML 21M.

## APPLICATIONS

- Hydraulic systems in industrial applications.
- Hydraulic systems in marine applications.
- Hydraulic systems in mobile equipment applications (cranes, excavators, etc.)

## ADVANTAGES

- Outstanding hydrolytic stability.
- Outstanding thermal stability and oxidation resistance.
- Excellent filtering properties.
- Outstanding anti-wear protection.
- Excellent anti-corrosion and anti-rust protection.
- Very good air release properties.

## SPECIAL INSTRUCTIONS

Mixing of EKO HYDROLUB HLP hydraulic oils with engine oils may lead to foaming, creation of deposits and filter clogging.

## HEALTH AND SAFETY

Protect the environment while disposing of used product. Used lubricants should be collected at specific points to ensure they do not pollute the environment. Do not mix with solvents, brake fluids, antifreeze and water, to allow for proper handling.
