EKO ROLLING OIL
Non-emulsifiable mineral metalworking oil

DESCRIPTION - APPLICATIONS

EKO ROLLING OIL is a high refined mineral oil specially designed for spark erosion machines (EDM). It is suitable for use in roughing and finishing operations, for the production of aluminium foils, and in general for metal working applications requiring low-viscosity, neat cutting lubricants.

ADVANTAGES

- Good dielectric strength.
- Low viscosity.
- Low volatility.
- High flash point.
- Excellent heat transfer characteristics.
- Good oxidation stability.
- Odour levels within acceptable limits.
- Low toxicity.
This data sheet provides basic information on the product as at the date of drafting. For further information regarding applications, please contact EKO ABEE Technical Support, tel. +30 210 5509 511 and +30 210 7725 418. Advice on safe handling is provided in the Safety Data Sheet.
